Why should you do this course

- This course is suitable for teachers teaching all grades.
- The institutions are always in search of teachers who have sound knowledge in child psychology
- The course helps the teacher to identify children with special needs.
- Teachers become aware of development milestones and apply them appropriately in the teaching methods.
- Helps in identifying various behavioural traits of kids and determining proper solutions
- Enables the teachers in mapping emotional and social development in children.

How do you start the course

- Fill our online application form to enroll in the course.
- Our staff will get in touch with you to make you aware of the course.
- Once the payment is done, our teachers will start teaching you.
- Each of the modules has a set of MCQ questions or assignments that you need to complete successfully to move on to the next level.
- There will be an assignment at the end of the certificate & diploma course.
- After the completion of the course, we will provide you an accredited certificate.
